

# Rent 4 Laerdal Baby Anne Training Manikin

---

## **SPECIFICATIONS:**

Manufacturer:	Laerdal Medical A/S
Certificates:	N/A
Size:	W 81.28 x H 81.28 x D 31.75 cm
Color:	Available in: Light and Dark
Country of origin:	China
NATO Stock number:	N/A
Quantity:	1
Weight:	23.08 kg

The Resusci Baby manikin offers realism and quality to infant CPR education. Its full-body construction, and use of the optional SkillGuide performance indicator enable students to quickly sharpen their skills in performing infant CPR to high standards.

**Product benefits:**

- Educationally effective by focusing on the performance level of key CPR skills and techniques for infants
- Realistic anatomical body and landmarks provide the essential features necessary to learn realistic infant handling and quality infant CPR skills
- Logistically convenient carrying case for easy transportation and storage

**Product features:**

- Natural obstruction of the airway allows students to learn the important technique of opening the airway so that in a real-life situation they know how to effectively administer air to the victim
- Head tilt/chin lift and jaw thrust allows students to correctly practice airway maneuvers necessary when resuscitating a real patient
- Occluded airway with hyperextension highlights correct head position
- Realistic chest rise verifies correct ventilations
- Realistic resistance for chest compression allows the students to experience the amount of pressure needed to perform proper chest compressions in a real-life situation
- Anatomically correct landmarks and sternal notch allow the student to practice identification of all anatomical landmarks relevant to infant CPR
- Articulating arms, legs and head allow realistic weight and handling of an infant during obstructed airway maneuvers
- Brachial pulse simulation to realistically check for pulse
- Disposable non-rebreathing airways are suitable for use by more than one student during class and are quick and easy to change after each training session
