Drive unit to power Door Blaster HDB 90 ST. Compatible with Wireless Control Set for remote operation of the Door Blaster (radio range: 100 m. / 328 ft. clear line of sight).

Standard supplied with:

- Mounted hose set (2 m. / 79 in.) incl. remote control
- Pump, air bottle and converter in practical backpack
- Easy carrying by one person
- With PALS webbing to hold additional equipment (e.g. pouch with wireless receiver or extra air bottle)
- Quick-release clasps for immediate release of backpack.
- Allows for remote operation
- Choice between using the mounted control on a 2 m. / 79 in. hose, which is part of the product, or the separate Wireless Control Set (radio range: 100 m. / 328 ft. clear line of sight)
- To activate and quickly release the Door Blaster from a distance
- This enhances operator safety
