Tariff:	90211090
Weight:	250 g

The SAM Pelvic Sling II is the first and only force-controlled circumferential pelvic belt scientifically proven in peer-reviewed studies to safely and effectively reduce and stabilize open-book pelvic ring fractures.

Buckle maintains correct force – cannot be over-tightened.

Simple 3-step application: just insert belt through buckle, pull strap, and secure.

Velcro on strap and sling for quick and easy fastening. Reusable, not a one time use device.

The standard size fits 98% of population.
