The MOLLE Drop Extension Panel - Armor Compatible was designed to provide a lower MOLLE attachment point on the X-Belt™ PS for items such as mag pouches or MOLLE holsters, without lowering it so much that it requires a drop leg panel.

The MOLLE Drop Panel is semi-rigid, allowing some flex to accommodate the wearer's movement, but rigid enough to support magazine or pistol draw.

If mounting magazines pouches, the Drop Extension Panel lowers the top of a 30 round carbine mag to the level of the top of your belt.
