The SP Ice Pack gives fast and effective essential cold treatment for tendon injuries, inflammation, knocks, sprains, strains, bruises and swellings. So easy anyone can do it.

Applying ice to the damaged area lowers the metabolism and consumption of oxygen while constricting local blood vessels preventing fluid build up. The application of an ice pack will also numb nerve endings, easing the pain.

No refrigeration is required to use the SP Ice Pack, just squeeze the packet and apply. The pack has been designed to prevent freeze burns and so can be applied directly to the skin.
